Mobile no.: - +91-8126137103
Address: - Roorkee Laksar (247663)

CAREER OBJECTIVE: -

I bring a strong foundation in HTML, CSS, and JavaScript to create engaging and responsive user interfaces. Eager to learn and contribute to web development projects, I am committed to staying up-to-date with the latest industry trends and best practices. I will give my best effort to reach my goals and objectives to obtain professional level skills in Web development.

PROJECTS: -

○ Spotify clone

- The aim is to closely mimic the layout and design of the original spotify homepage to provide a realistic user experience using the HTML and CSS. This project is intended for educational purposes and to showcase web development skill.

○ Clock Using HTML, CSS & JS

- to create clock with Hour, Minute and Second using pure HTML, CSS and JavaScript

○ Tic Tac Toe with user characteristics

- Tic Tac Toe is a classic two-player game in which players take turns placing X's and O's on a 3x3 grid. The objective is to be the first player to get three in a row horizontally, vertically, or diagonally.

- Overall, a Tic Tac Toe Python project is a great way to practice your programming skills, especially if you're new to Python. It's a fun and challenging game that requires some strategic thinking and logical reasoning to win.
